More Lesson Plans [1](#) [2](#) [3](#) [4](#) [5](#) [6](#) [7](#) [8](#) [9](#) [10](#) [11](#) [12](#) [13](#)

- Click delete if you want to delete the topic created by you. But remember! All the contents of the plan created will be lost, along with reports of students who may have used that plan will be deleted. Students will no longer be able to access the plan and it will be omitted from student module also.

ADD A PLAN

Click Here

Welcome **teacher1** To Clickatutor.com

- You can view all the lesson plans created by you to date by clicking on "**View All Plans**" on the menu above.
- To preview sample lesson plans created by our experienced teachers, please click on the link named, "**Sample Lesson Plans**" to your left. Please select any one of the three available curriculums namely, Home School, Private Schools and Public Schools.
- To copy a lesson plan, please click on any one of the Sample Lesson Plans from your left hand side menu and note down the name(s) of lesson plan(s) you would like to copy. Click on the link, "**Copy Lesson Plans**" from your left hand side. Enter the name of the lesson plan you just noted down from the sample lesson plans and please follow some simple instructions to complete the copying of the desired lesson plan.
- You can add a new lesson plan for your students by clicking on the "**Add A Plan**" link from the menu above. For more details, [click here](#).
- To fill in a Report Card for your student, please click on "Report Card" link from your left hand side.
- View the lesson plan reports of your students through the "**Students Reports**" link from the menu above. For more details, [click here](#).

- Whenever you want to add a new plan, you have to click this option. This will open an entry screen on the right hand side of the page.

- 'Name of the lesson plan' field will simply have name of plan that you want. School name is the name of school for which you are creating the plan. Do remember when announcing the lesson plan in school that the school name entered here should match the name of the school where this plan is to be used. If a student enters a school name different from that on your plan, they will get the message " no plan exists for your school".

Mathematics Grades 4-8 > Number Sense >

1. Select course:  

2. Select Topic:  

3. Select Section:

Fractions
Integers
Test Yourself

Final Preview

● The rest of the fields are self-explanatory. When you click the next step you will be required to select course name, then topics under that course and finally sections that you plan to teach. Please remember after you have entered your course selection, the screen will automatically refresh and display only the topics under that course.

Mathematics Grades 4-8 > Number Sense >

1. Select course:

2. Select Topic:

3. Select Section:

Fractions
Integers
Test Yourself

Final Preview

[Click Here](#)

- When you click the final preview, you will get a summary of the plan you have prepared.

Following is the final preview of lesson plan created by you

Name of Lesson Plan: Math
Course Name: Mathematics Grades 4-8
Topic Name: Number Sense

Total sections selected are: **1**. Please chose your sequence of Appearance.

<input type="text" value="1"/>	Fractions (Preview)
--------------------------------	-------------------------------------

Click Here	<input type="button" value="Create Plan Now"/>
----------------------------	--

- At this stage you have to select sequence/order of sections.

Following is the final preview of lesson plan created by you

Name of Lesson Plan: Math	
Course Name: Mathematics Grades 4-8	
Topic Name: Number Sense	
Total sections selected are: 1 . Please chose your sequence of Appearance.	
<input type="text" value="1"/>	Fractions (Preview)
<input type="button" value="Create Plan Now"/>	

 **Click Here**

- When you click the 'create plan now' button, you will receive the confirmation message telling you your plan has been successfully created.

Congratulations , Lesson Plan Created Successfully
